

In Search For Hayti “i.e. in search for Wakanda”

Dr. Henry C. McKoy, Jr.

Findings: Higher Black Population Share – Less Equity

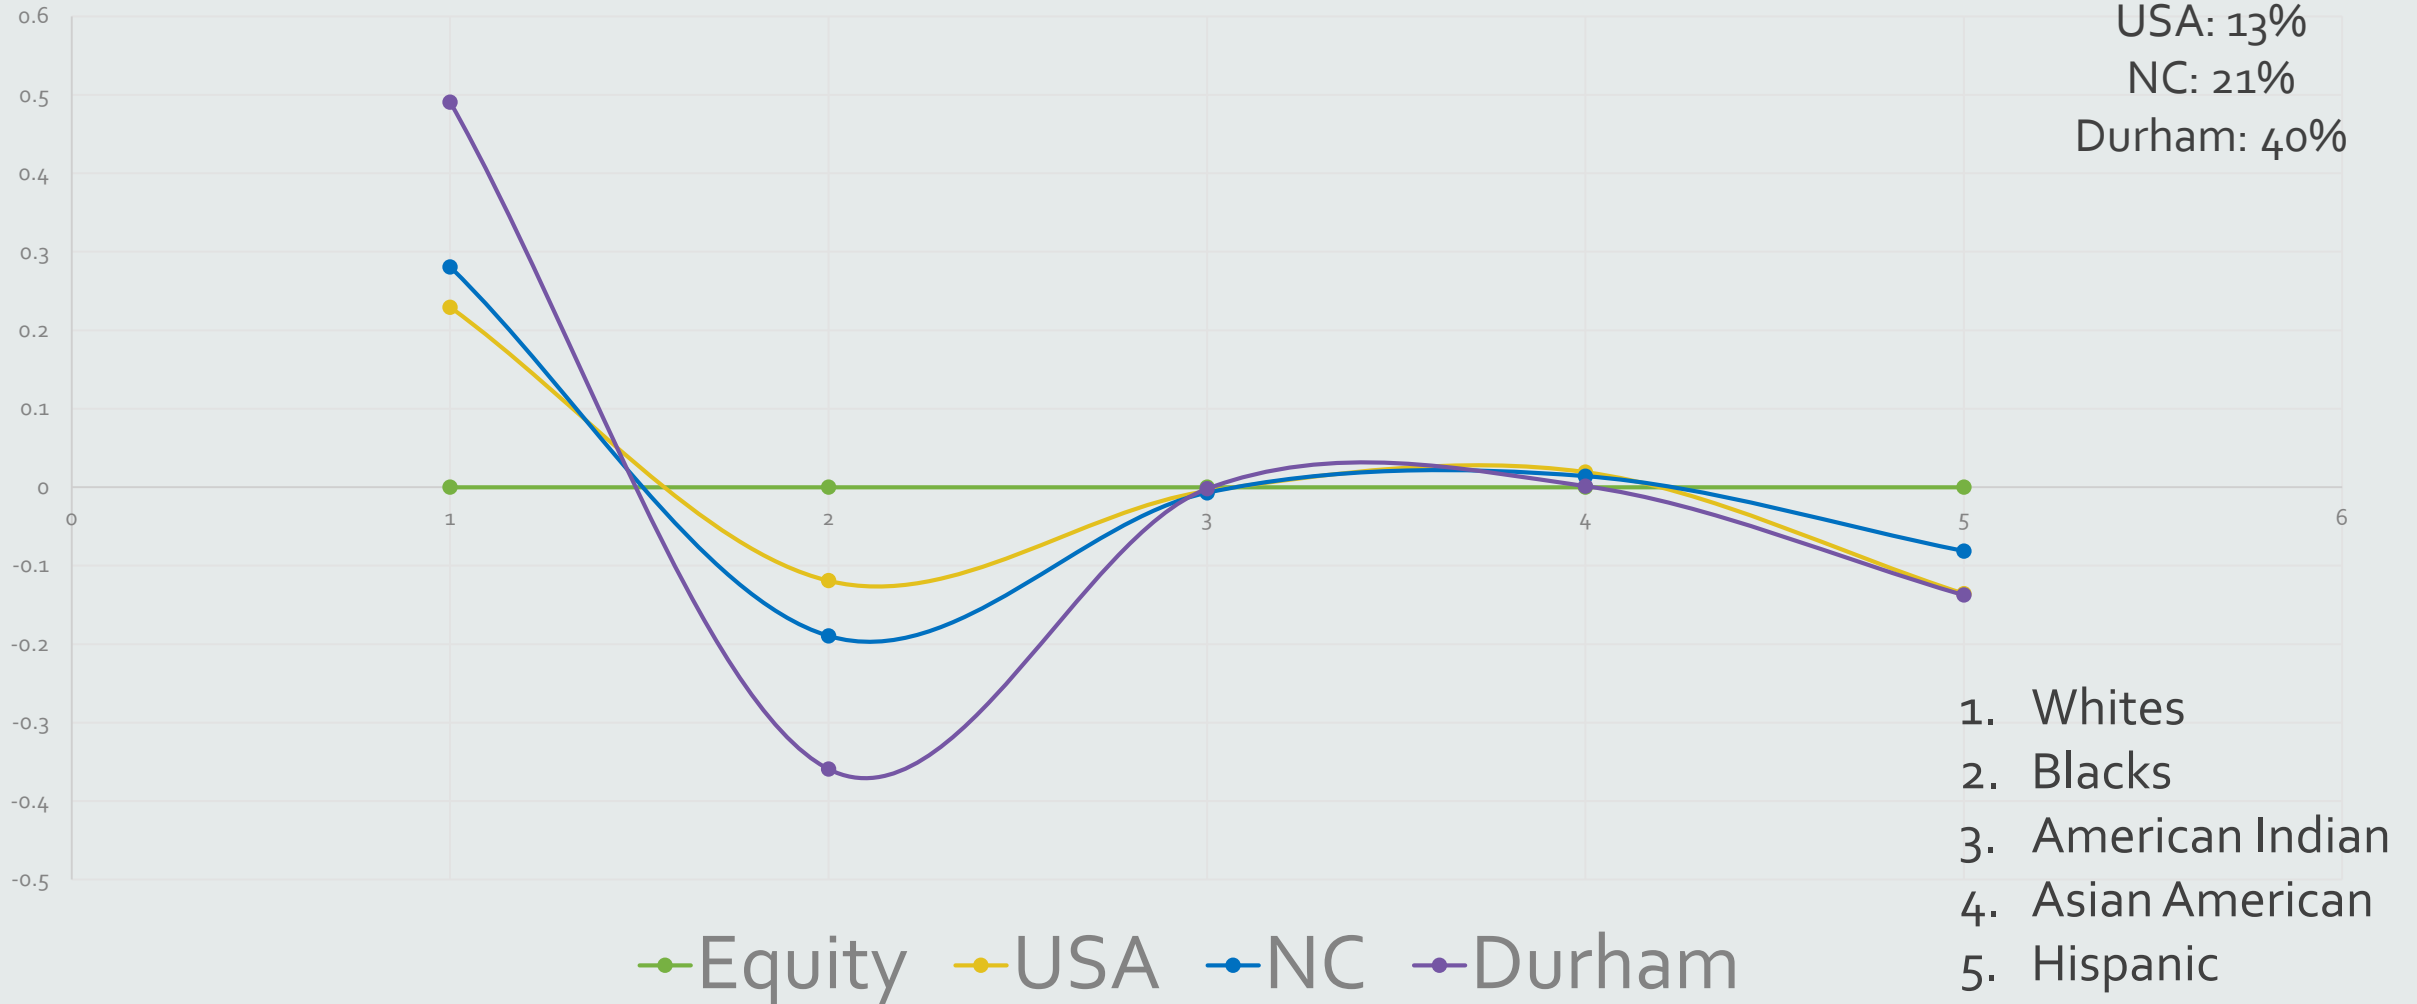

Community Economic Ecosystem Equity Index [-1,1]

Black Population:

USA: 13%

NC: 21%

Durham: 40%

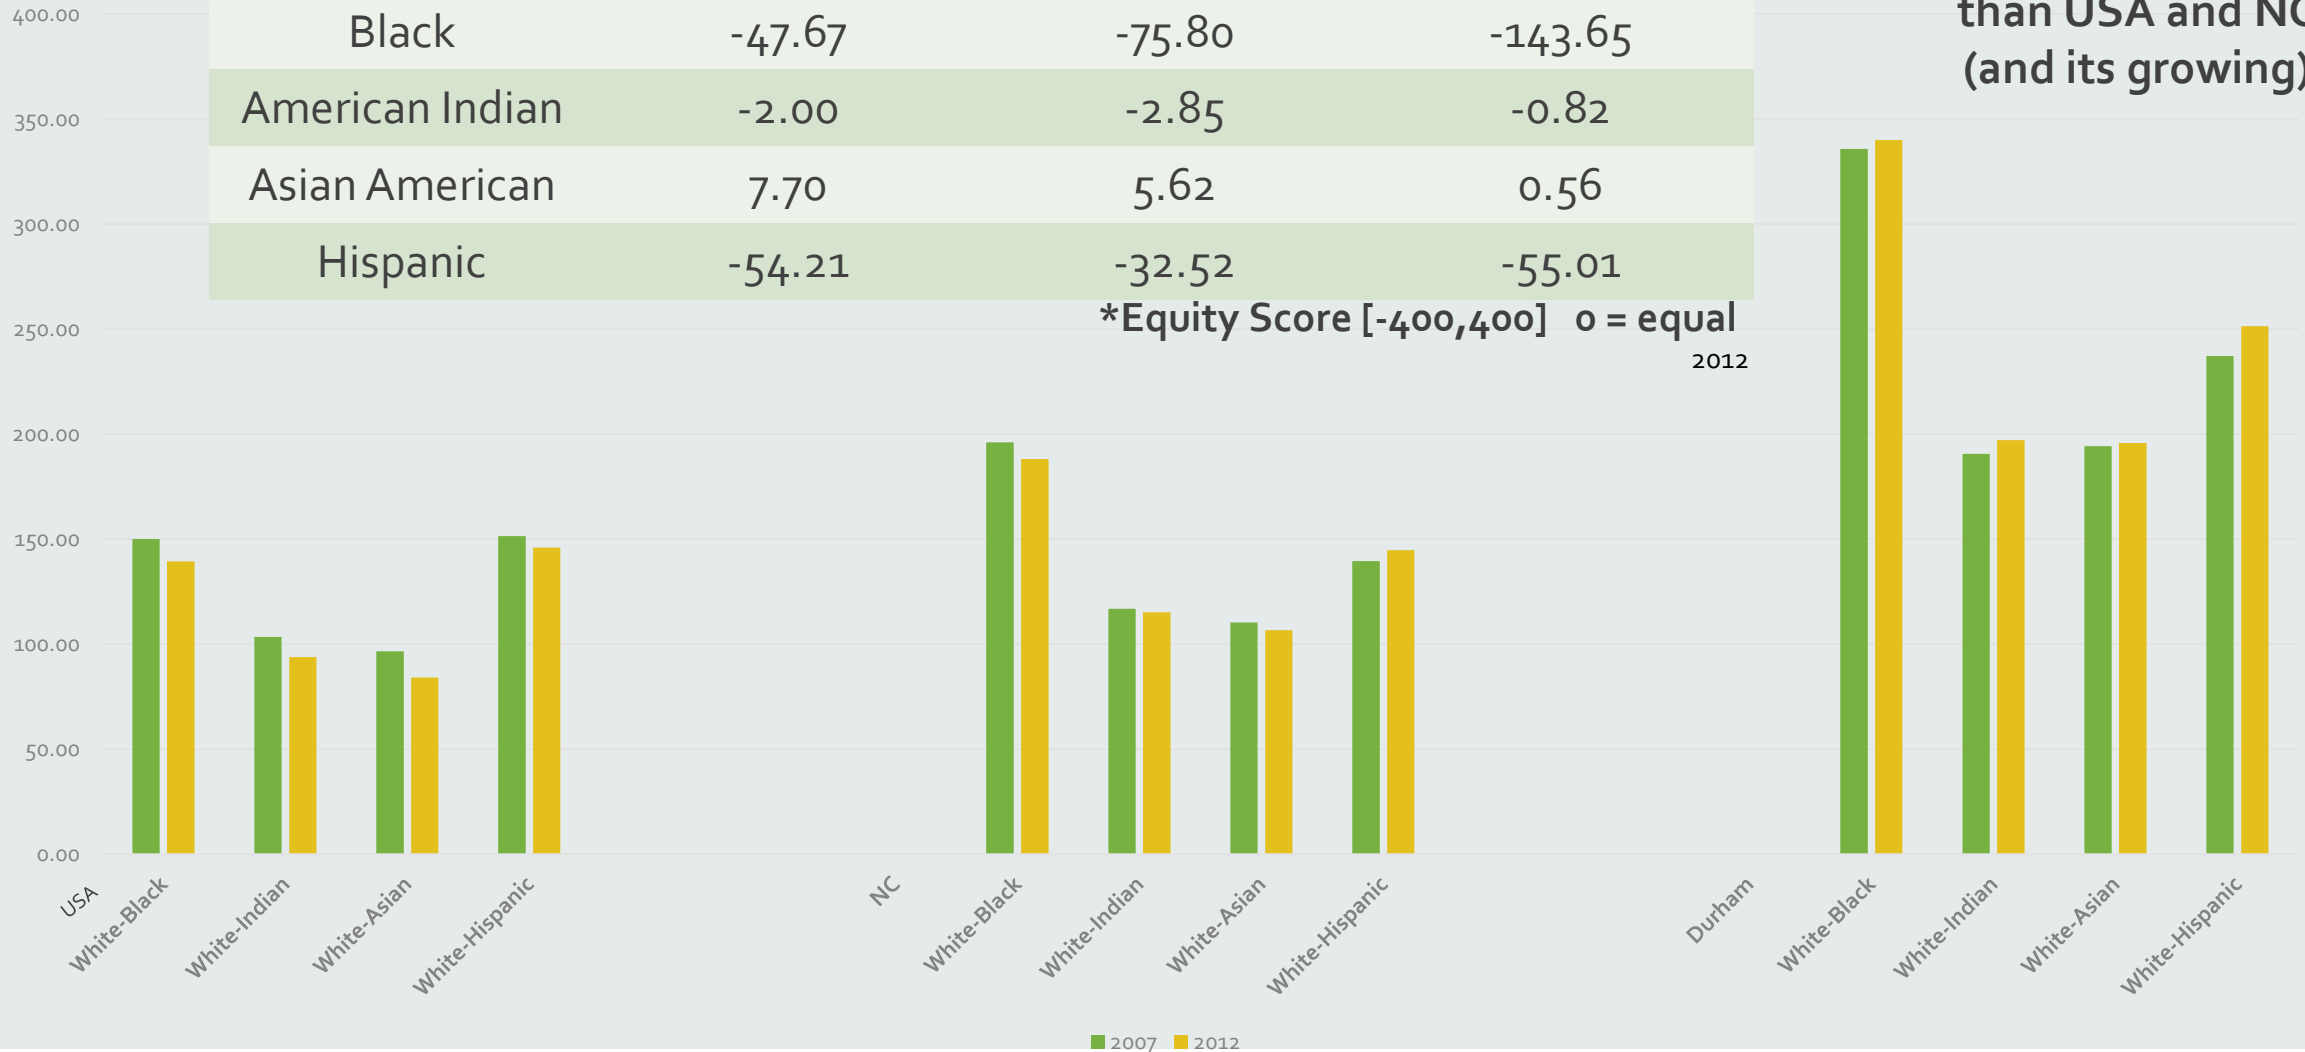

2012 SBO Census Data

Community Economic Ecosystem Equity Gap

Race/Ethnicity	USA Score	NC Score	Durham Score
White	91.77	112.27	196.31
Black	-47.67	-75.80	-143.65
American Indian	-2.00	-2.85	-0.82
Asian American	7.70	5.62	0.56
Hispanic	-54.21	-32.52	-55.01

Durham more economically inequitable than USA and NC (and its growing)

*Equity Score [-400,400] 0 = equal
2012

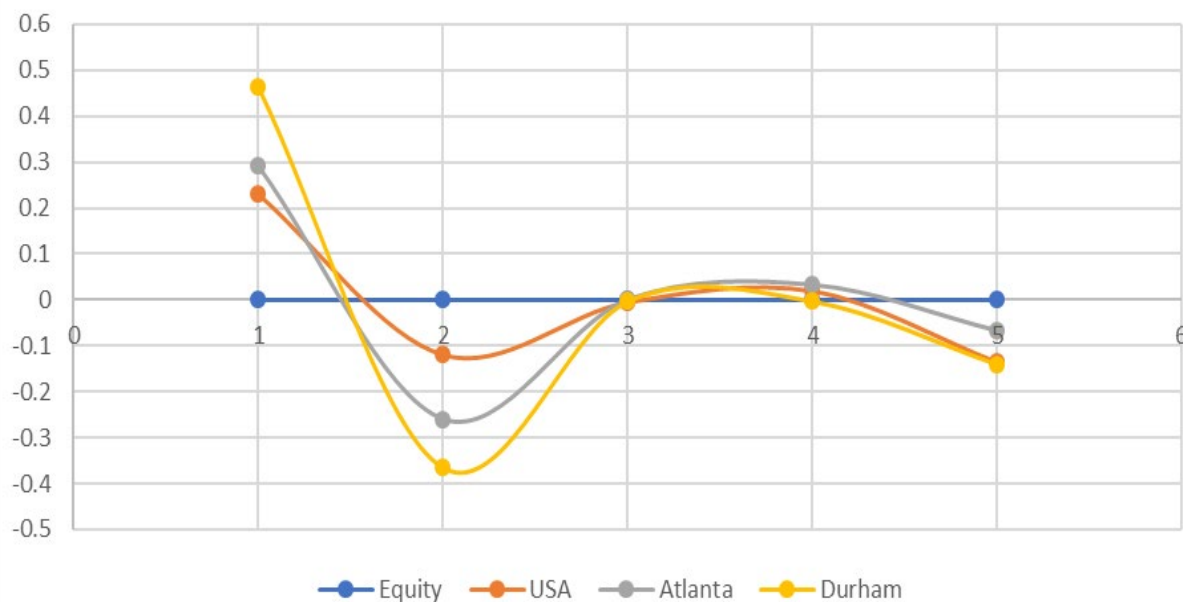

HEPI: USA; Atlanta; Durham

FINDINGS

Groups: 1. Whites; 2. Blacks; 3. American Indians; 4. Asians; 5. Hispanics

2012 Hygieconomic [Equity/Parity] Index (HEPI)
Economic Ecosystem Equity Index

The word "Hygio-" derives from the Greek word for "healthy" and "good." Thus an economy that has Hygieconomic Equity and Parity, is a healthy economy

Economic Ecosystem Equity Gap

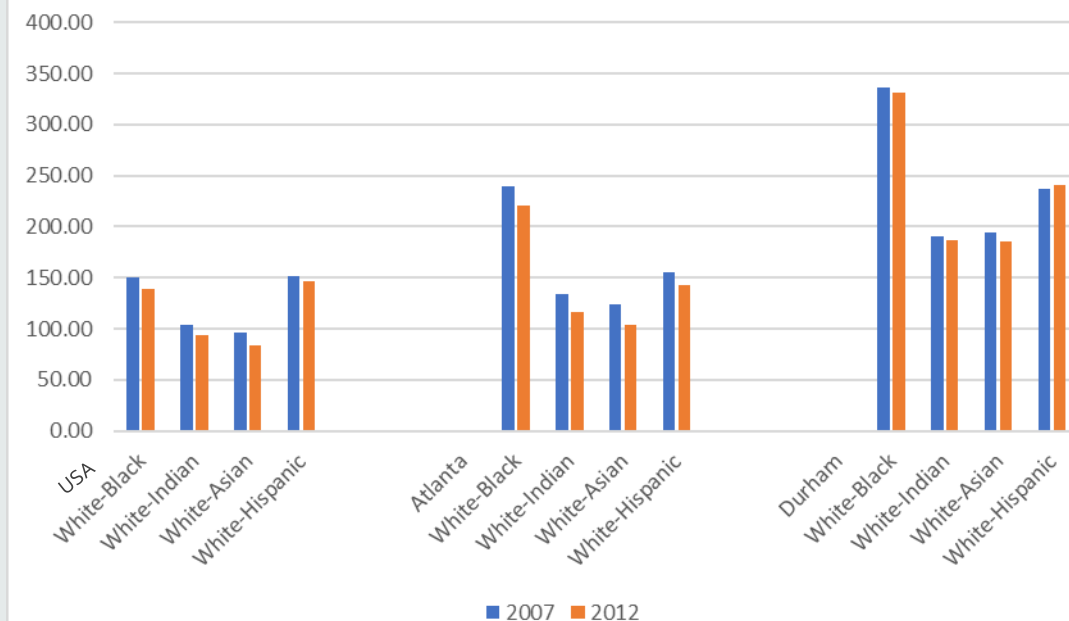

Table 1. Hygieconomic Composite Score for U.S., Atlanta, and Durham Areas by Race/Ethnicity, 2012, [0,800], 0=equity

Community Economic Ecosystem Area of Analysis	Hygieconomic Composite Score, 2012 (i.e., Average Equity Gap)
United States	115.81
Atlanta, Georgia	145.79
Durham, North Carolina	235.99

*The lower the Hygieconomic Composite Score – the better (zero gap = equity)
