

Provisional List of Electives for Inequality Studies Minor (10.7.20)

Since the prospective minor was announced, additional faculty requests for courses to be added as electives have been received. They were welcomed. The joint History-Cook Center vision of the minor is ecumenical: We intend to reach globally, and we search for pluralist and multivalent understanding of inequality. We insist on the integrity of the core but are open, welcoming and expansive about the electives.
